## 1 Introduction

The website [www.myrcom.ch](http://www.myrcom.ch) of Aebit RC Progress offers interesting services for every rc-car enthusiast. You will find here a extensive result-database. The results of much races, which are run with RCM Server - the ultimate timekeeping software for rc-car-races - worldwide, are accessible for the public. The very high numbers of access to MyRCM show, that this service is very popular with the drivers. Further on you can fill in your entry for a race on MyRCM. This service is used by many clubs using RCM Server for time keeping. Besides of all this [www.myrcom.ch](http://www.myrcom.ch) offers a special service at several races: Online Streaming. This means, that you see the same screen in internet, you see normally on a monitor in the pit or drivers area on a race. This allows to keep anybody worldwide informed about the racing on the track.

## 2 Preparations

Just enter the URL <http://www.myrcom.ch> in you internet browser and you reach the welcome screen of MyRCM. To use this service there is no registration and/or login necessary. You can select the language by clicking on the appropriate flag in the upper left corner.

### 2.1 Basics of the Operation

In the upper right corner you can enter a search word. Please note, that the search is limited to the item where you just are.

If a table is divided into more than one pages, you can scroll through the pages by clicking on the "Back", "Next" or on one of the page numbers below of the table. By clicking in the headline of a column of the table, the table will be sorted by this column. Clicking again will reverse the sorting order. The sorting order (ascending or descending) is indicated by a small arrow in the Headline of a column.

## 3.2 Online Reports

A new window opens where all details of the event and of the organizer are shown.

In the lower part of the window you find the sections which were run on the event. By clicking on a section you are interested in a new window is opened and you can select the information you want.

In the left column is a menu. Please note, that this menu is written in the language the organizer uses for the printed reports on the race track. All menu items displayed in green are available. By clicking on a line in the menu, the result or list is displayed in the right part of the window. Of course you can only see results of heats already run.

If you have not entered all mandatory details in a correct way, the background of the input fields for the necessary details changes to pale red and you can complete your entryform.

After a short time you see a notice, that your entry is registered. Besides of that an email is send to you to confirm your entry.

If you do not have an account on MyRCM already, you can now create one with the "link to the MyRCM Sign Up page". The personal data you have entered in the race registration will be taken over to the account.

By using the link "enter additional race registrations" you can enter additional registrations for that particular race without the detour on the race registration page.

## 8 Signed-up MyRCM-User

You can sign up to MyRCM as registered user. This gives you the advantage (for registered user of RC-Timing programs there are some additional features available, please refer to the user manual of the customer zone of MyRCM) that all your data is directly used at the registration for events. In addition you will receive a newsletter if you want.

If you are not logged in on MYRCM as a user or you do not have an user account. You can click on one of the links on top. By clicking on “link to the MyRCM Login page” you can log in and after that you will be redirected to the Raceregistration. The “link to the MyRCM registration page” allows you to open a new user account on MyRCM.

Below you have to enter all the details. All fields marked with an “\*” are mandatory. After entering all details you have to click on Commit (in the left lower corner) to send the entry form.
